| Email: [inaswafiyah27.com](mailto:inaswafiyah27.com)

I am currently a four-semester student at IDN Polytechnic, majoring in Software Engineering. I am highly interested in front-end development, especially for web and mobile platforms. I have hands-on experience using Flutter for mobile UI, and Tailwind and Bootstrap for responsive web design. While front-end is my main focus, I am also capable of working on the back-end, particularly with PHP and the Laravel framework. I am familiar with MySQL for managing databases. I am adaptable, hardworking, and enjoy collaborating in team environments. I'm eager to grow in a front-end role, while also being open to contributing to back-end tasks when needed.

### SKILLS

PHP	Laravel	HTML	Javascript
Bootstrap	Flutter	CSS/SCSS	Git
Tailwind	API	Database Mysql	python

### EXPERIENCE

#### Full-Stack Developer – Freelance & Academic Projects

July 2024 - Present

- Ticketing App: Developed a ticket booking system with Laravel and MySQL, featuring seat selection and real-time updates.
- TrashSmart: Built an eco-friendly waste management app with Flutter and Laravel, supporting location-based pickup and user rewards.
- Craftalog: Created a product showcase website for handmade crafts with Laravel, Tailwind CSS, and MySQL.
- Worked in teams to build responsive apps, using Git and deploying to Vercel.

#### Eduwork.id – Fullstack Web Programming Student

April 2025 - Present

- Completed an e-course in Fullstack Web Programming from zero, focusing on both front-end and back-end development.
- Built real web projects using HTML, CSS, JavaScript, PHP (Laravel), and MySQL.
- Outcome: Developed a full-functioning website prototype and deepened fullstack knowledge.

#### Dicoding.id – Pursuing a Career as a Software Developer

29 July - 07 August

- Training focused on exploring various career paths in software development, including Software Engineering, Front-End, Back-End, iOS, and Android.
- Covered core skills, responsibilities, and industry insights for each field.

#### IDN Teaches – Web Development Instructor

21 Desember 2024

- Taught basic HTML and CSS to middle school students at Mazaya, guiding them in building their first simple web pages.
- Outcome: Boosted student interest in web development through hands-on learning.

### EDUCATION

#### Software Engineer - Politeknik IDN

In Progress, 2024 - 2028

Over two semesters, I developed skills in web and app development, including HTML, CSS, JavaScript, MySQL, PHP, Laravel, Bootstrap, Tailwind CSS, and Flutter. I successfully completed several projects, including:

1. Portfolio Website with Bootstrap and Tailwind CSS.
2. Ticket Booking System with Laravel and MySQL.
3. Eco-Friendly Waste Management App with Flutter and Firebase.
4. Handmade Product Website with Laravel and Tailwind CSS.
5. CRUD Application with PHP and MySQL.
6. RESTful API for Web Apps with Laravel.

#### Ulumul Qur-an and Hadits - SMH Radhiyyathan Mardiyah putri

member of the Worship Division:

1. carry out duties as a member of the Worship Division.
2. help create an orderly and disciplined environment.
3. help organize every school event well.
